Hello I have this guy coming to my home in Venetian falls and now to Sarasota national where we bought a new home. I knew he was coming so I had video cameras put up. The problem here is I put up with this Coward for 6 years we moved to get away from him. He got in our new home here at Sarasota national 3 days ago and sprayed paint on our driveway. He did the same thing in Venetian falls. My wife is upset I'm upset I know who he is. How do we stop him he rides a bike at night and sneakers in.

I'm Ameerah from Denmark

I'm *

I hope you can help me?

What can we help you with?

I was on a relationship with an American man two years ago. He works as a surgeon. His name Saleh Issa lives in Sarasota. He then traveled to India for his own project, medical equipment. He needed money and I sent him money. And we had a relationship of love. But to the regret when he finished his project. First thing he did was to cancel his account on the telegraph and Watts Ab. He also closed a telephone number. I could not communicate with him. I have all the documents that indicate the validity of my words.

This's his phone number: +1(518)740- 0021

This's him when he was in New Delhi

What is it that you are asking us to do?

Could you educate folks about the rules of pedestrians on the cross walk?
At a traffic light the PEDESTRIAN has the right of way and the cars
MUST wait. My husband was hit and has been almost hit again because
people pay no attention to the crosswalk and the pedestrian light. IT IS
FRUSTRATING.

FEB 19, 2019, 7:52 PM

I hope that somehow people will be educated on the cross walk before
someone else gets hurt or even killed. If you would sit at Walgreens OR
near Publix many tickets could be issued as drivers do not obey the traffic
laws.

FEB 20, 2019, 12:58 PM

Hi Dianna. Thank you for your feedback. We have posted about
pedestrian safety in the past and we will certainly do so again in the
future. Stay safe!

Thank you so much. It saddens me that drivers have no regard for
pedestrians.

i suspect my neighbor is a sex worker and bringing in drugs from the different men she has over at all hours. I witnessed a silver truck at her side of the duplex today, and the driver unlocking black safe of some kind in the bed of his truck and then stashing it's contents in his pants before heading inside her apartment. then 2 other men from different apartments went inside as well, then left within 15 minutes. both are known pot smokers in this neighborhood.

I'm tired if all the traffic, sex noise, cars being parked on my side of the duplex (her johns) and the unsavory people being around all the time.

I've informed my landlady of my suspicions, but is there anything else you all can do? I have a teenage son here and the proximity to drugs and the like scares me.

I also smell weed coming from her side thru my bedroom wall quite often & hear the men she serves hacking (up a lung) all the time.

I would like to know if you are aware of the eye in the sky. I have sent this video to several major networks to see why this satellite is sitting above my lanai as well as other residential area's including an elementary school. This egregious assault began after a call to police on a neighbor that attacked my property who had ties to North Port as well as SCS. Can you explain the object over my property since 2014? This video was shared with several individuals who are going to place on networks across country to see what & why this object remains. Thank you for any info Jeanie

MON 1:11 PM

Hello I would like to reach out to Sheriff Knight. My name is Jean Kilcourse I reside in North Port. I came to Sheriff office close to 3.5 years ago to show video of satellite above pool. I expressed concern as well as informed them of a shocked feeling. The sonic frequencies I have endured at high levels is unimaginable. After a call on a neighbor 12--30-2014 to police after our property was attacked our lives were never the same. This spying DHS neighbor (who somehow knew my private conversations within my own home) baited me for 2+ years into confrontation. A man bullying a woman alone in a strange state because he knew his buddies were cops. In our absence a new Federal employee obtains property under suspicious quit deed. Since their appearance we have had loss to electronic equipment, RF no touch torture lighting,, more satellites close to properties early morning. A Sarasota Sheriff Van frequented Walmsley Ave to see John Emmerson & Scott Stancomb. I am certain I was targeted that night by a hateful jealous group of friends who did not like the new attractive woman coming here alone. Our security camera, light system destroyed, destruction private property, security camera moved in our absence, things gone missing. Now I believe the ILLEGAL STINGRAY USE UNDER OBAMA ADMIN caught my unflattering but true statements of Benghazi, BLM, Burning of Baltimore etc.on private phone conversations hijacked then used against me for opposition research BOGUS INVESTIGATION "false red flag" to intentionally destroy our life. Our government was not meant to be used as a retaliation tool for personal vendettas. Our law enforcement was NOT MEANT TO BREAK THEIR OATH to illegally track a 50+ year old woman in her own country like a dog. My car and I believe my home too illegally entered. WHO was the Sheriff deputized under Obamas corrupted FBI?? Why did the US Marshal confiscate the records of us residents egregiously violated by this stingray use prior to ACLU obtaining them??? Was the Sheriff deputized the one who frequented Walmsley Ave in North Port? Why did these two other neighbors suddenly move after my first stint in the hospital after these DEW assaults? I have contact my Representatives as well as my President as to what took place here, You allowed the most corrupted admin in history to play judge, juror, and executioner to innocence for mere words of truth. You were schooled to lie about this use! Is there anyone there who honors the oath they took? These records now MIA for a reason... EGREGIOUS ABUSE! I want answers, I will keep contacting my Representatives daily. Thank You Jean Kilcourse

Hi.. quick question. I just got a very strange email trying to get money from me by extortion. It mentioned sending a video of me using a porn site to all of my contacts if I don't send them over \$900 USD on bitcoin. I don't have a webcam or visit those kind of sites, so I'm thinking maybe it's not legit, however - it does list a password that I used to use a long time ago so I don't know what's going on. 🙄 Is there some way to have this investigated?

Good morning. I left a message on the phone but I thought I'd leave one here as well. My name is Jeannie Anderson and I live in Statesboro, GA. My sister, Lisa Rana Sullivan lives in Venice, FL. Her last known location was at Tidewell Hospice House in Venice. I received a call from my sister Crystal Sullivan that Lisa passed away on Saturday, February 23 at the hospice house. The problem is, I can't find where they sent her body or any info on her death. There is no obituary information and I've contacted all of the funeral homes/crematoriums in Sarasota County and no one knows her. I can't get in contact with her mother(we have different mothers). Hospice can't give information over the phone due to HIPPA violations. They just say she is no longer there. I'm afraid all of this is suspicious and am very concerned. Please advise me on what to do. Thank you.

There was a man and a woman in this car. The man was clearly yelling because his hands were flailing everywhere. At the stop light at Webber and Shade, the woman tried to get out of the car and he pressed the gas. He then grabbed her by her hair and pulled her back in. He continued to hold her by her hair and pull her head back and yell at her. I took a picture of his license plate because I didn't know how else to help.

Is it legal for motorized scooters, bicycles, mopeds or golf carts to use sidewalks to travel on? There seems to be an abundance of them all over the city/county and they cause pedestrians to get out of the way.

Hello! I am a single mother with a son with Autism. He is mostly non verbal and at this time he is 5 years old. I was just curious if your officers are trained in special needs and identifying when someone has special needs? I'm petrified for his future later in life if he does not become verbal. My son just like most autistic children and adults doesn't understand commands when overwhelmed and wants to avoid people when fear of danger. I have a sign in my car window in case we were to ever get into a car accident letting police and rescue know. I will be more than happy to work with you all in any way possible. I think it's very very important for our local police department to understand their struggles and to be able to recognize it. Feel free to message me anytime and thank you for your time!

GoodMorning SCSO, I recently shared your picture regarding turning left and right at an intersection and a friend pointed out that in the florida drivers handbook, it says that you can complete a left turn in any lane that is lawful. <https://www.heraldtribune.com/news/20190212/sarasota-police-to-crack-down-on-cbd-relative-of-marijuana>

Soooo what city or county or state statue says the sheriff can do this? What is the actual law here?

From my point of view these products are legal. They are being sold state wide in all smoke shops and gas stations alike.

I am not saying fuck the law. I am saying what is the actual law that says they are INDEED ILLEGAL?

I would like someone to break this down for me, legally? Preferably someone local, that actually knows the policy.

Sarasota Law Enforcement, or Lawyer or someone that knows because I do not know.

CBD by definition is cannabis with no THC or, less than .3% THC. On the labels it actually says within federal law this is a legal product. However, I do understand this is localized to the city limits of Sarasota but am unclear if it covers the county of Sarasota...

The article here is vague about that part which is very important. Also it is not clear whether or not this policy is about the selling of the product and not possession of the product, like Kratom you cannot buy it in the county of Sarasota, but it is not illegal to possess kratom in the county of Sarasota only to purchase and sell.

The article also states that if you take these CBD products that you will fail a drug test, that is also untrue there is actually no data to support that assumption, but it's being posed off as if it is a fact and it's not even close to being a fact it's a bold-faced lie.

So this new Statue or policy needs to be clear, very clear, to business owners and employees so they do not break the law by accident...

I am also posting this on Morgan and Morgan's page as well.

Sarasota Police to crack down on CBD, a relative of marijuana

SARASOTA — A noneuphoric cousin of cannabis could be pulled from store shelves after Sarasota...

Driving on US 41 southbound today just north of SRQ airport. A van carrying big metal pieces that appeared to be part of an old a/c system suddenly started losing it's load and the metal pieces flew off of the van's roof. We were lucky to avoid hitting anything, but we witnessed the car in front of us run over a piece of metal. His tire deflated and he drove off 41 into a business parking lot. He was driving on the rim of the tire. We followed the vehicle that lost the load and I got a pic of the tag. FL tag #1B30LS, Silver gray Kia Sedona van. Looked like there was a problem with one of the doors on the driver side, but can't say for sure. We drove back to try to find the driver of the damaged vehicle, but we couldn't find him. I wanted to pass along this info to him. Maybe this driver has reported the incident to police by now. It was very dangerous, as big pieces of metal were all across the southbound lanes of US 41. Hope this helps somebody.

it's not cool that you call 911 for a non emergency call and it is now going on 45 without someone coming, and a small child on his way to St. Pete hospital.. emergency or not, all calls should be done in a timely manner and this is not acceptable

I was just busting ballz. Officer Kost was my SRO when at Venice Middle and Venice High in the 90's. If he's upset about something I would say their is merit to his concerns. He was the best SRO ever that really shaped a positive opinion about law enforcement for our school. I don't know anyone growing up that didn't look up to him.

Thanks, John. There is so much that goes on behind the scenes that doesn't really make sense for a social media post (LOL), that it's important we are able to talk to citizens one on one. That's why we went through and asked everyone who commented on the post to connect with us individually so we can come out and meet you or talk by phone. Our relationships with the community we serve is crucial to our success. We would still like to talk to you if you wouldn't mind at least sending us your phone number.

Hi Bill. This was based on John Kost's thread as it relates to our south county front desk closure. I reached out to everyone who engaged on the topic so we could explain further. I understand you contacted the Colonel and it sounds like your concerns have been resolved. Thanks & stay safe!

Thank you
